

M20:20

Microsoft 365 for £20k in 20 days

TiG have partnered with more than 150 growing UK businesses to deliver Microsoft cloud migration and business transformation projects. Our M20:20 solution uses automation, machine learning and micro services to rapidly deploy Microsoft 365.

M20:20 is recommended for...

Businesses with up to 500 employees, spread over multiple sites with staff working on the move.

Implementation

Implementation of the M20:20 solution is painless. The combination of TiG's experienced team and the power of Microsoft 365 provides businesses with immediate improvements in productivity and increased security posture. We'll implement the solution with minimal business disruption, so end-users will be able to work as usual throughout the process.

“
Our customers need a partner they can trust to give them a competitive advantage. If they succeed, we succeed.”

George Georgiou,
Chief Operating Officer
